

God's Animal Kingdom Classroom

Howler Monkey

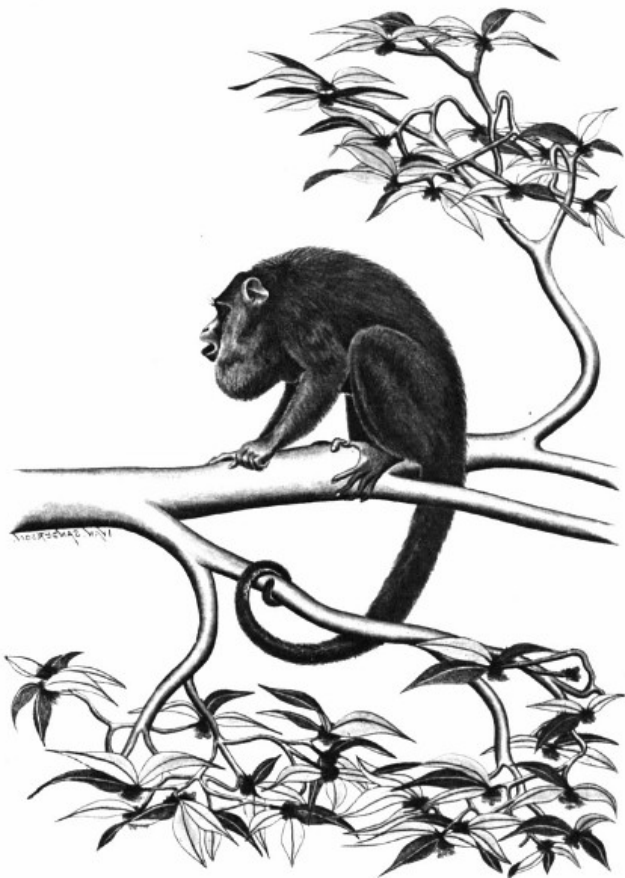

The Howler monkey is a very noisy animal. It can sit on a branch quietly resting or eating but when it wants to communicate, it can be heard for over a mile. This small monkey has a voice which you would expect from a very large animal.

What can we learn from the Howler monkey?

The Howler monkey teaches us to boldly talk about our Savior Jesus Christ. This one small

monkey can be heard all over the jungle. When we talk about Jesus, our voice can be heard over great distances as others repeat the gospel message. When we tell others about Jesus, they may tell even more people and so on. The message about our salvation will spread from person to person all over the world. The Bible tells us in 1st Peter 3:15, *“Always be prepared to give and answer to everyone who asks you to give the reason for the hope that you have.”*

Jesus tells us in Matthew 10:27, *“What I tell you in the dark, speak in the daylight; what is whispered in your ear, proclaim from the roofs.”* This is what the Howler monkey seems to be doing and it is what we should be doing also. We have a wonderful Savior and we should be willing to tell everyone about Him.
