Kookaburra

The Kookaburra is a funny bird who has become a movie star. The Kookaburra lives in Australia yet whenever you watch a jungle movie, no matter where the jungle is located, you will hear this bird. The hooting call of the Kookaburra is so unique that it has become the famous jungle bird sound in many movies.

The call of the Kookaburra is loud enough to be heard over great distances. The Kookaburra not only likes to sit high on tree branches, it also likes to run around on the ground.

What can we learn from the Kookaburra?

The Kookaburra teaches us to boldly talk about our Savior Jesus Christ. This one small bird can be heard all over the jungle. Just as the Kookaburra calls from the trees and the ground, we should not be afraid to talk about Jesus wherever we are.

Our voice, when we talk about Jesus, can be heard all over town. When we tell others about Jesus, they may tell even more people and so on. The message about our salvation will spread from person to person all over the world. The Bible tells us in 1st Peter 3:15, *“Always be prepared to give and answer to everyone who asks you to give the reason for the hope that you have.”*

Jesus tells us in Matthew 10:27, *“What I tell you in the dark, speak in the daylight; what is whispered in your ear, proclaim from the roofs.”* This is what the Kookaburra seems to be doing and it is what we should be doing also. We have a

wonderful Savior and we should be willing to tell everyone about Him.
