

Lesson 2

Pictures of Jesus

The Bright Morning Star

Numbers 24:17 | **“A star will come out of Jacob.”**

Revelation 22:16 | **“I, Jesus, am the bright Morning Star.”**

Have you ever looked at the sky in the morning and saw a bright star shining? You would not think of a star being out in the daytime but this is a special star. This star can be seen at night and often in the morning too.

This star reminds us of Jesus. He shines with love both night and day. Jesus is always there watching over us. The love of Jesus is so bright that you can even see it like a star on many mornings.

If you are outside at night and look up at the sky, you will see many beautiful stars shining. It feels good to see these pretty lights in a dark sky. Everything that God made is beautiful.

Stars were made by God to comfort us. When we see stars at night, we know God's love is shining down on us. Even if there are clouds in the sky, the stars still shine.

Stars were also made to help guide us. Sailors use the stars to find their way in the ocean. People who live in the desert use stars to guide them across large empty areas. When

Jesus was born, a star guided the three wise men to the manger where He was.

The next time you see the stars at night or the morning star in the daytime; remember the love that Jesus has for you. Jesus loves you so much that he left heaven to live on earth as a real person and then He died on the cross to take away all of your sins. That is real love!

PRAYER TIME

I thank you Jesus for all that You have done for me. Thank you for showing me Your love every time I see the stars at night or the morning star in the daytime. Teach me more about You and what You have done for everyone. Amen
